

## Water level increasing in several lakes thanks to bountiful rain

Chennai, Nov 15: Many waterbodies in Chennai's three neighbouring districts getting filled up due to bountiful rain. The water level in several lakes is steadily rising, thanks to good inflow from their catchment areas.

About 332 lakes out of the nearly 1,483 lakes maintained by the Water Resources Department in Kancheepuram, Tiruvallur and Chengalpattu districts

are full.

In Kancheepuram and Chengalpattu districts, nearly 187 of the 909 lakes have storage between 76% and 99%.

A large number of waterbodies in these districts are already filled to 50% of their capacity.

Officials said many major lakes in Kancheepuram and Chengalpattu districts, including Thenneri, Sriperumbudur and Kolavoy, are either fast

filling up or already filled to their capacity.

The Palar has been in full flow this monsoon and Vayalur check dam in the tail-end of the river was filled up on Sunday. About 25,000 cusecs (cubic feet per second) of flood water drained into the sea as the river received runoff from its tributaries.

The saturated condition of the river, which has had flow since last northeast

monsoon, led to rapid filling up of check dams, the officials said.

In Tiruvallur district, 114 lakes out of 574 under the purview of the Water Resources Department are full.

Only 59 tanks have a storage of less than 25%. The department expects a minimum of 100 more lakes to be full during the next spell of rain.
